COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, Nov. 16TH 1878.

BUSINESS continues in the same quiet state, which we have had to report for so long past. There is no real change in the political situation in Europe, but the telegrams that have arrived during the week are of a generally pacific character. Active preparations continue here for the carrying on of an Afghan Campaign.

The week's commercial telegrams point to a renewal of confidence at home in business circles generally. Money in the open market is now at ¾ per cent., or one-and-a-half per cent. below the Bank rate, and Consols have advanced to Rs. 96¾.

The values of the shares of the Indian Joint Stock Banks are mostly higher. The Bank of England return is a decidedly favourable one, showing an increase of £800,000 in the Reserve, and £200,000 in Bullion, and a falling off of £800,000 in Discounts, the proportion of the Reserve to Liabilities having improved from 34½ to 38·7-16 per cent. The Produce Markets at Home, it is true, do not show any signs of improvement; the same state of depression prevails throughout the North of England, and prices for raw Cotton are again somewhat easier, the latest quotations for Mid.-Orleans being 6d. and for Fair Dholl-rah 4¼d. per lb. The Receipts of Cotton at the U. S. Ports during the week have been very moderate, but with the overwhelming supplies which we are promised in the future, this has not had the effect on the Market that would have been the case if there was the slightest prospect of scarcity hereafter. The London Markets for Coffee, Oil, and Oil-Seeds are ill dull.

Our markets show little change. With the exception of moderate purchases of Oil-Seeds to fulfil freight engagements our Export trade has been almost at a standstill, as Cotton continues to be quite neglected, and of Wheat there are still no supplies. Our Import trade shows no immediate signs of recovery, and there is only a moderate offtake of Piece Goods from the Bazaar at lower rates. Grey Yarns are still very dull of sale, but Dyed Twist has been in slightly more demand at lower prices. Metals are dull, and to effect sales in Copper a further concession has to be made to buyers. For local made Goods and Yarns there is only a very moderate demand, but previous rates are maintained. Money here continues very easy. Government Securities are decidedly firmer. Shares very quiet. Sterling Exchange has advanced slightly during the Week. Freights are still very dull at 7s. 6d. to 10s. per ton by steamer for Liverpool, and still no enquiry whatever for sailing vessels.

The Trade Returns for the Port of Bombay for the years 1877-78 have been published during the week and show the following result. The total value of the external trade of Bombay exclusive of Stores and Treasure on account of Government, amounts to Rs. 66,24,87,358, showing an increase of Rs. 4,50,25,512 against the value of the trade of the preceding year. This aggregate sum includes the values of both the Foreign and the Coasting trade, but the details of the latter are not yet published. The value of the foreign trade during the year was Rs. 49,90,60,553 against Rs. 46,70,38,013 in 1876-77, an increase of Rs. 3,20,27,540. The annual average of the five years 1872-73 to 1876-77 was only Rs. 39,25,79,190. The increase was, however, in imports only, which amounted to Rs. 25,33,02,501 against Rs. 21,03,75,657 in 1876-77. The total amount of Exports was Rs. 23,87,58,082 against Rs. 25,66,56,356 in 1876-77. The increase in Imports is chiefly due to the large amount of treasure that is brought to this port by the mail steamers, as Piece Goods show the large decrease of Rs. 37,45,908, of which Shirtings alone show a falling off of nearly Rs. 18,50,000, Mulls Rs. 2,50,000, and Printers Rs. 1,75,000. The competition of the local Mills is also apparent from the fact that T. Cloth 18 reed and upwards show an increase of Rs. 3,23,443 whilst those under 18 reed show a falling off to very nearly the same extent. In Yarns the increase of Rs. 8,49,866 over and above that of last year is mostly in Turkey Red and other Coloured Yarns. Metals on the whole show an increase. Copper of 2,906 cwts. with a decrease in value of Rs. 1,86,760. Yellow Metal of 21,743 cwts. at an increase of Rs. 6,74,443. The decrease in Exports for the year amounting to Rs. 1,78,98,304 is also chiefly in treasure, as those of Merchandize generally with the exception of Cotton have increased. In Cotton the increased consumption by the Local Mills tends to a certain extent to diminish the exports, but during the year under report the outturn of the gathering in Cutch, Katty war, and other Guzerat districts, as well as those of the Deccan and Khandeish were much below the average. The exports to the United Kingdom, France, Russia, and China have declined; whilst to Austria, Belgium, Germany, Holland, Italy, and Spain have increased.

At the weekly biddings for Council Drafts in London on Wednesday, the advertised amount of £200,000 was offered, of which £120,000 were allotted to Calcutta and £80,000 to Bombay all in bills. Tenders at 1s. 7 8-16d. receiving 9 per cent. on Calcutta and 25 per cent. on Bombay.

The average rate of allotment on both places was 1s 9·31. The rate was somewhat higher than was generally looked for, but the demand for remittance to the East is evidently still very moderate, as the value of Bar Silver is with difficulty maintained at 56¾d. per oz., and there are still no shipments advised of the Metal for India. That an allotment was made at all, however, shows signs of some slight renewal of activity in trade, and if the present amount of Council Bills is not increased until our Export Season has fairly commenced, it seems probable that the amount will be taken up week by week at gradually hardening rates.

MONEY.—The last published statement of the Bank of Bombay for the week ending on the 11th inst. showed an increase in the Cash Balance of upwards of 33 lakhs, the result of an increase of deposits to a like amount. With this favourable statement before them, however, no alteration was made by the Directors at their Board meeting on Wednesday last in the Bank's rates of int rest and discount, as notwithstanding the great ease which prevails in the Bazaars for money, the action of Government forms an unknown quantity in all calculations respecting the future, as with the possibility of England being involved in a European War, in addition to the campaign on the Frontier, the position of our Money Market might at any moment be entirely altered, and great ease be changed to extreme tightness. In the meantime, we have merely to repeat our quotations of last week, viz., 4 per cent. on Fixed Loans on Government Securities, 5 per cent. on Demand Loans on similar securities, and 6 per cent. on Mercantile Bills.

STERLING EXCHANGE.—Rates have undergone an advance of a quarter to half per cent. in the week for Bank Bills, but with the prospect of easier money at Home the Banks are still buyers of first class House Paper at last mail day's quotations. The fluctuations during the week have been very slight, as a general indisposition to operate both on the part of buyers and sellers was shown until the result of the sale of Council Bills was known here. The allotment gave rise to a stronger feeling, but the amount allotted is too small to cause any sudden reaction, and until the demand for remittance to the East is sufficient to take off £350,000 to £400,000 weekly, we do not look for any great strength in Sterling Exchange, and this in the present state of our Export Market we cannot expect until the turn of the year. Rates for the mail opened at 1s. 7 5-16d. for demand Bank Bills and 1s. 7¾d. for 3 months' sight Credits, and on these there was no alteration until Thursday morning when, with the news of the allotment of Council Bills the Banks came out as sellers of Demand Bill, at 1s. 7 7-16d. without altering their buying rates. The Market closes firm at our quotations. Bank Bills on demand 1s. 7 7-16d.; 6 months' sight 1s. 8d.; Credit, 3 months' sight 1s. 7¾d. to 1s. 7 15-16d.; 6 months' sight 1s. 8¼d.; Documents' 3 months' sight 1s. 7 15-16d. to 1s. 8d.; 6 months' sight 1s. 8 3-16d. The rate for Mercantile Bills on Paris at 3 months' sight is francs 2·10½.

On Calcutta there has not been much doing during the week at 100½ for demand Bills and 99½ for 60 days' sight paper.

On China the nominal quotation is Rs. 217 per 100 dollars for 60 days' sight Mercantile Bill. The latest quotation from Hongkong for 6 months' sight Bank Bills on London is 3s. 9d. per dollar, and from Shanghai 5s. 2¾d. per tael.

BAR SILVER in London has fluctuated very slightly since last mail day, but since the settlement of Council Bills a somewhat steadier feeling has been manifested, the closing quotation being 56¾d. per oz.

GOVERNMENT SECURITIES.—The Market was dull, early in the week and large sales were made at rather easier rates, but at the close there is a decidedly stronger feeling owing to large investments on the part of Native capitalists. Our quotations are:—Fours, Rs. 94½; Fours-and-a-half, Rs. 94¾; and New Fours-and-a-half, Rs. 100.

SHARES.—The most noticeable feature in this Market during the week has been increased steadiness in the values of Bank Shares. Agras have advanced Rs. 2, Nationals Rs. 2, and Madras Rs. 5 per share. In Land Companies, Colabas after some fluctuations, close at an advance of Rs. 10. In Spinning and Weaving Companies the tendency has been generally downwards. Alexandras have declined Rs. 20, Alliance Rs. 30, Bombay Hemp and Jute Rs. 10, Colabas Rs. 5, Dhurrumsey's Rs. 20, Fleming Rs. 20, Great Eastern Rs. 5, Mandvie Rs. 5, Nissi Rs. 15, Nursey Rs. 10; and Hindustan shares have advanced Rs. 10, Jewraz Balloo Rs. 5, Khandeish Rs. 10, Khatau Mucconjee Rs. 10, Madras United Rs. 25, Soondercas Rs. 10. In Press Companies Advocate have declined Rs. 10, Apollo Rs. 15, Bombay Rs. 20, and Victoria Rs. 50 per share, and East India Press shares have advanced Rs. 10, French Press Rs. 10, and Mofussil Rs. 5. In Miscellaneous shares the only change is an advance of Rs. 10 in those of the Bombay Burmah Trading Corporation.

PIECE GOODS.—The Market keeps very quiet with only a moderate demand from dealers, the total sales for the week amounting to about 800 bales, consisting almost exclusively of Grey Shirtings, Madapollams, and Dhoties; the prices realised generally show a decline of 2 to 3 annas per piece on those of last week. From up-country the demand in the Bazaar is almost at a standstill, the Offtake during the week having amounted to only about 700 bales. That an improvement in the demand must eventually set in there can be no doubt, provided shipments from Home do not materially increase, but we expect to see great dulness until the end of the present year as until then the prices for food grains will rule high. For Fancy Goods there is little enquiry, and the consumptive demand generally is interfered with by the amount of fever that is still raging in Kattywar, and to which we referred last week, although it has subsided to a great extent in the N. W. Provinces.

YARNS.—There is little enquiry for imported Twist, and of local Spinnings only 350 bales have changed hands on the basis of 6½ As. per lb. for No. 20's.

From the Commissioner of Customs's report for the year 1877-78 it appears that the Exports of Cotton Yarn and Twist show an increase in value of Rs. 31,71,332, the total exports being nearly double those of last year. Out of Rs. 68,00,000 worth Rs. 60,50,000 has found its way to China alone. To Aden and Arabia there has also been an excess over the exports of last year. Notwithstanding these large exports, most of which are said to have been made by the local Mill owners on their own account, the stock left in hand was so great, that there was no alternative but to close some of the Mills altogether, and others partially about the end of the year.

METALS.—*Copper.*—Sales have been reported of Brazier's during the week at a decline of 8 As. per cwt. on our last quotation, the rate now being Rs. 46-8 per cwt. For Sheathing the price has also given way, there being now sellers at Rs. 47 per cwt. without finding buyers; *Yellow Metal* is dull of sale at our last quotation. In *Iron* there is still little doing from officers, but with an improvement in exchange Indentors will no doubt shortly operate more freely.

COALS.—The arrival business of the week is confined to two Cargoes of Laird's Welsh Hartley at £18¾ for October and Rs. 19 per ton for November shipment. Small transactions are reported alongside vessels in harbour including some Ryhope West Hartley at Rs. 20-12 per ton.

COTTON.—The Liverpool telegrams in the early part of the week reported dull dragging Markets with a partial decline of 1-16 per lb., and we have again to report upon a period of extreme dulness; in this market at the close a slight improvement is reported in Liverpool, which, however, has not had much effect here. The reported transactions of the week amount to 2,000 bales of Old Cotton at about previous rates, and 1,000 bales of New Cotton for February-March delivery. Of the former the sales have been chiefly made up of old Barsee and Veerangaum, whereas the latter comprises Rs. 300 bales G. Oomrawutlee Rs. 135, 200 G. F. at Rs. 175, and 200 bales F. G. F. at 180, 300 Bales M. G. Broach at Rs. 195.

The *Receipts* from Up-country during the week have been about 5,184 bales, making a total of 38,129 bales since 1st September, against 7,400 and 34,000 bales respectively last year.

The *Clearances for Sea* since the departure of last Mail have been 3,686 bales, making 726,081 bales since 1st January against 825,331 for the corresponding period last year.

In NEW CROP accounts there is little to add to our report by last Mail. Picking in the Oomrawutlee districts has commenced but no arrivals have yet come to market, and the few samples that have reached us do not at all represent the Crop. Hingunghaut is still being kept back, and there are no sellers for earlier than January delivery. Broach is now reported to be in a flourishing condition. Coompta and Dharwar promises well, and although accounts respecting Dholl-rah vary, we are inclined to favour the larger estimates.

The following are to-day's quotations for full-pressed Cotton with the equivalent in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission:—

		₹ Candy of 784 lbs.	₹ lb. C. & F.
Old—			
Oomrawuttee	Fully Good Fair	...Rs. 192 =	4 13/16d.

LINSEED.—Early in the week with unfavourable accounts arriving from Home and no inclination on the part of shippers from this side to operate, prices gave way 3 to 4 Annas per cwt. Supplies are, however, still very small and of inferior quality, and on an increased Export demand springing up owing to the decline, a reaction took place, and the previous decline was partially regained. For Old Seed we quote Rs. 6-8 to Rs. 6-9 per cwt. In New Seed business was done early in the week for March delivery at Rs. 6-2 per cwt.; at which there were numerous sellers, who subsequently submitted to a decline of one anna, but even at Rs. 6-1 per cwt. there are few buyers, and with an abundant Crop in prospect a further considerable decline must shortly be established.

RAPESEED.—In the absence of supplies is almost nominal at Rs. 7 for Yellow and Rs. 6 per cwt. for Brown. There is nothing doing yet in the new Crop.

GINGELLY SEED.—With an enormous crop, which must shortly be poured into this market, rates are maintained almost at last year's quotations when the crop was a failure, owing to purchases to fulfil Freight engagements, in addition to a good enquiry for local consumption. We quote Rs. 41 per candy for local use.

WHEAT.—There are still no supplies, and prices are again nominally higher, viz., Rs. 40 to Rs. 41 per candy for best White; Rs. 39 for Mixed; and Rs. 37 for Hard Red.

STEAMER REPORTS.

GALLE, Nov. 16, 12-10 A.M.

Mail steamer Teheran from Bombay arrived.

HIS EXCELLENCY the Governor is expected to arrive in Bombay from Mahableshwar this morning.

AN accident, which by most extraordinary good fortune was not attended with very serious consequences, occurred to the Jubbulpore mail train this side of Bhosawal early yesterday morning. Contact with a stray buffalo caused a portion of the train to be thrown off the line, and three carriages were overturned and very considerably damaged. Yet we understand none of the passengers were killed and but few injured, the most serious injury inflicted on any one being a broken leg.

IT is stated that the reply of the Amir to the Czar's letters was taken to Turkestan by an Afghan noble named Mirza Muhammad Hasan Khan, Dobir-ul-Mulk. He was commonly expected, in Kabul, to return after absence of 40 days.

REPORTS from Kabul state that about 500 Mullahs of Ghazni are travelling about the country preaching a *jehad*. The Amir inspects personally this arms factories, such as the gun foundry, &c. and is said to have given out 400 guns on the 21st ultimo for practice to some Ghazis of Kohistan who have been ordered to proceed to Kurram. About two hundred sheep have been sent from the Koistan of Kabul to Kurram for the use of the troops there, who are under the command of Sirdar Wali Muhammad Khan. The rigorous exaction of the poll-tax of Rs. 4 annas 8 is said to be causing great suffering and general discontent. The merchants of Kabul have been called upon to supply *postrens* and *barok* to the troops gratis. Observing the high prices of provisions in Kabul, the Amir had ordered Sirdar Ibrahim Khan to take measures to reduce them ; the latter consequently fined the merchants Rs. 5,000 for charging such prices.

THE Lahore paper says :—"We are extremely pleased to hear that it is under consideration to alter the destination of the major portion of the force assembled at Kohat. We have already expressed strongly our sentiments on the absurdity of locking up an effective force in a close valley like that of Koorum for many months together without a chance of employment for it. Now we hear that the same view has been taken by the Commander-in-Chief, and it is considered probable that after leaving a sufficient garrison for Kohat and Thull, the remainder of the column will be sent to reinforce the troops under Sir Sam. Browne at Peshawur, a measure which we heartily applaud."

THE correspondent of the *Pioneer* at Peshawur telegraphs, under date Nov. 13 :—Heavy firing was heard yesterday morning from Ali Musjid. It is reported that the Amir's troops are blocking up the pass. Fever is rapidly abating. All families of soldiers begin to leave the district for Rawul Pindi to-day. All officers now on leave have been finally recalled. The Commander-in-Chief is now in Pindi. No more sick leave for Nowshera.

IT is said that the Madras Commissariat Department are arranging for the entertainment of some thousands of extra dooly bearers to accompany the Madras troops to the Frontier.

LIEUTENANT STEPHEN BIDDULPH, H. M.'s 24th Regiment, has been appointed A. D. C. to Major-General Biddulph.

CAPTAIN BERESFORD LOVETT, C.S.I., R.E., has been appointed Brigade Major of Engineers to Lieutenant General Sir Sam. Browne's Division.

MR. N. ST. L. CARTER, has been confirmed in his officiating appointment of Traffic Manager to the East India Railway Company, and Mr. Urban Broughton as deputy.

SUBJECT to the approval of the Secretary of State the Government of India have, on the recommendation of the Committee on the organisation of the Marine Department in India, sanctioned provisionally the appointment of an Examiner of Marine Accounts at Calcutta upon a consolidated salary of Rs. 1,000, rising by five equal yearly increments to a maximum of Rs. 1,500 a month.

THREE Turkish refugees from Yarkund have passed through Kashmir. They report that they were originally five in number, but one is dead, and one has remained in Ladakh. They say that the Chinese numbered only 6,000, of whom 1,000 were disaffected Tunganis ; and that it was only internal dissension and treachery which made the conquest of Kashgar possible to such small numbers. They are of opinion that the Chinese will ultimately be driven out by the natives.

THE eldest son of His Highness the Sultan of Muscat was married at Muscat on the 15th September to the lady Zowaneh bin Thoweynee bin Saeed. The young Prince is named Sayyid Muhammed bin Toorkee, and is about fifteen years of age. He is the Governor of Sohar, whither he returned shortly after his marriage.

THE *Rangoon Times* is glad to hear that the temporary difficulties in which the old and respected house of Todd, Findlay and Company found themselves, in consequence of the disastrous failure of the City of Glasgow Bank, have been so far removed that the firm will resume business again very shortly, if not at once.

THE *Pioneer* :—Mr. MacFarlan, of the Bombay Civil Service, Post Master-General of Bengal, will probably retire under the commuted pension scheme at the close of the current year. He will most likely be succeeded by Mr. T. Gribble, an old hand at the work.

THE *Indian Daily News* :—The number of troops destined to operate in the Kabul expeditionary force is as nearly as we can estimate as follows :—The Koorum Valley Column, under Major-General Roberts, v.c., 5,550 ; the Quetta Column under Major-General Biddulph, c.b., 6,250 ; the Candahar Division, under Lieutenant-General Stewart, 6,300 ; the Peshawur Division under Lieutenant-General Sir Samuel Browne, K.C.B., 10,000—making altogether an aggressive force of 29,100 of all arms. In addition to the above, there will be the two reserve divisions. The first, under General Maude, whose headquarters will be probably at Hassan Abdul, consists of 6,000 men. The second under General Primrose composed of the Bombay and Madras troops, will also number 6,000 of all arms, and will rendezvous at Sukkur.

THE *Bangalore Spectator* :—We learn that Lt.-Col. Swindley, H. M.'s 15th Hussars, has now been nominated as Brigadier General of Cavalry to proceed with the reserve column which is destined for the frontier. This arrangement has emanated from Simla, and cancels the nomination of Lt.-Col. Arbuthnot, 14th K. H., who was in the first instance appointed to command the Cavalry Brigade. It is just another of these bits of jobbing which the Bengal authorities are only too fond of perpetrating, and the whole affair bears on the face of it a degree of inconsistency truly laughable. Those who know Col. Arbuthnot, 14th K. H., will admit, that as a cavalry officer he is one of the foremost in the British army, and that he is no featherbed soldier the pages of Hart's Army List will amply bear out. However, we think the gallant Fourteenth would rather have their own Commanding Officer to lead them in the field. The *Madras Mail*, writing on the command of the Cavalry Brigade, says :—Who is to command the Madras Brigade to be sent to the frontier ? There is evidently some hitch about the appointment, due probably to differences of opinion in high places as to whether the commander ought to be a Queen's officer or a local officer. Colonel Arbuthnot of the 14th Hussars had been nominated for the command, but the Bangalore *Spectator* now states that it is to be given to Colonel Swindley, from the Bengal side, and that Colonel Arbuthnot will remain at the head of his own regiment. On the whole, we think it would be more satisfactory to let the Madras troops be commanded by a Madras officer. The Viceroy seems to be piqued because the Duke objected to allow the Artillery stationed in Fort St. George to be taken for service on the frontier. The Viceroy thinks that the Governor of a Presidency should have no voice in the settlement of a question of Imperial importance. The Duke on the other hand, is not the kind of man to allow Viceroys or any body else to take liberties with the administration of affairs in this Presidency without his knowledge or consent. Between the two, the Madras Brigade command promises to be muddled.

THE *Asian* :—It was in order to encourage private practice and good fellowship among rifle shots, that the Bengal Rifle Club was formed in 1875. In those days members had to go out to the old range at Bailgurriah, the property of the Eastern Bengal Railway Volunteers, and the distance discouraged many competitors who would otherwise have joined ; yet the Club flourished, and matches were fired during 1875, 1876, and 1877, which were mostly open to all-comers and were largely contested. This year, however, the Calcutta Volunteer Range at Ballygunge has, on certain days, been placed at the disposal of the Bengal Rifle Club by the kindness of the Commanding Officer, Col. Walton, C. I. E., and half an hour's drive from any part of Calcutta brings one on to one of the prettiest ranges in India. The drawback of distance having been removed, a strong stimulus has been given to the Club ; it now numbers 56 members, and the institution of the monthly challenge cup will bring them together, improve the shooting, and popularise, we trust, a most healthy amusement. There are many men in Calcutta who have not disgraced themselves with the rifle on the ranges of the old country, and whose names may be found mentioned with honour in the score lists at Wimbledon ; many of them belong to the Club already, but the Club invites those who still hang back to show that they can still hold the rifle straight, and still bring out the white disc from the dark mantlet. "A new amusement" is the constant cry in Calcutta, and here is one to hand, as inexpensive, as interesting, and as healthful as any now in vogue.

EVERY one in Calcutta (says the *Englishman*) will be sorry to learn that Colonel Walton has sent in his resignation as commanding officer of the Calcutta Volunteers. Still more will they regret to hear that one of the causes of his being obliged to do so is failing health. For nearly thirteen years Colonel Walton has commanded the Calcutta Volunteer Rifles—a long spell for the same officer to command any regiment—and during the whole of that time he has devoted his best energies to the improvement of the regiment not only in drill but in morale. His loss will be most seriously felt by the men and officers of the regiment with which he is so identified. We do not know for certain who is to be his successor, but we have heard the name of Major Fergus Graham mentioned as probable, and his appointment would be a decidedly popular one.

THE *Englishman* :—The rain which fell throughout Bengal during the week ended the 9th instant has been quite sufficient for the present in all parts except Rajshahi, Saran and Champarun. In some districts the forward rice in blossom will have suffered from the heavy rain, but on the whole much more good than harm was done, and a good rice harvest is generally looked forwarded to. Locusts have visited Birbhum, but it is not known whether they have done any damage ; but in the east of Lohardugga they are reported to have done mischief.

THE *Pioneer* :—Though the population of the Punjab is said to be as a rule very abstemious in the use of intoxicating liquor and drugs, the excise returns for the year 1876-77, show a steady increase in the revenue. The total receipts for the year were Rs. 10,48,956 or Rs. 86,884 more than in 1875-76. The excess is about equally divided between spirits and opium, &c., and while of course not wishing bad habits to extend among the people, the government "hopes that the limit of expansion of this source of revenue is far from being reached." As a means to this end, it may be supposed the sale of rum has been promoted, the right to vend it by retail having been put up to auction in the same way as country spirits. This experiment was quite successful, the revenue leaping up from Rs. 48,337 to Rs. 55,691 in a single year. The Financial Commissioner states that the income from rum is clear profit to the Government as the sale of native liquor has been in no way affected, and the Lieutenant-Governor fully coincides in the view. It is apparently the old story of the "fire-water" of the English corrupting uncivilised society, for we read :—"Rum appears to compete successfully with the ordinary native liquors, and to be preferred, by the wealthier classes, so that its consumption is on the increase." Having ruined our soldiers' health with the rum ration, we are now in a fair way to debauch the natives with the same vile spirit. However, handsome revenue returns are no doubt more palatable to local Governments than abstract precepts of philanthropy, and the hope of further sales of rum will be carefully nursed until it bears rich fruit. As to illicit distillation the offence seems scarcely to exist, the chief source of annoyance being the smuggling of liquor from Native States. In these States the spirits are sold very little above the cost of production, and they find only too ready a market in British territory. Pressure has been brought to bear upon the Rajahs to raise their excise duties, and one State, Pattiala, has adopted this course. Opium has to be largely imported to meet the wants of the Punjabees, only 2,103 maunds having been produced in the province, while 1,796 are sent on from other districts. The Government does not hold out encouragement to those who wish to extend the cultivation of the poppy ; for it considers the present system should not be disturbed as it is "the result of much deliberation and experiment." Altogether the Lieutenant-Governor is highly satisfied with the report on a delicate subject as the revenue is evidently steadily growing.

THE *Englishman* :—A survey party is shortly to be sent out for the purpose of making a survey for the proposed new line of railway from Sonarpur viâ Mugra Hat to Diamond Harbour, and other parties to survey the land for the proposed new line of railway from Bagwangola viâ Jiaganj, Murshidabad, Berhampur, Krishnagarh, Santipur, Ranaghat, Jessore and Jessor to Kulna, and from Bongaon viâ Gobardange, Baraset and Dum-Dum to Calcutta.

THE *Army and Navy Gazette* :—So much has been said, and so often, concerning the almost incredible evils of the present system under which the Army Medical Department is worked, that it is with a feeling of complete despair that we return once more to the attack. Doctors dissatisfied with the loss of their regimental homes, Colonels complaining of being deprived of all hold over their men the instant they report themselves sick, patients asserting that a new doctor with new ideas visits them every morning—all unite in one great outcry against a state of affairs in which little can see no redeeming feature. So much can be said against the station hospital system, so many lines of attack lie ready to our hand, that the only difficulty experienced in demonstrating the folly of the present organization consists in abridging our remarks sufficiently to bring them within the space of a single paragraph. Were our task that of finding out the benefits conferred by the innovation a dozen lines would be more than ample. Important as may be the objections raised by the Colonels from the discipline point of view, justified as may be the complaints of the Surgeons deprived of their regimental messes, into which nowadays, more than ever the point, their feeling of regimental motherhood, we must for the present turn to the still more vital question of the welfare of the patients. Entering as we are upon a campaign of considerable magnitude, the unregimental system will now be upon its trial—with what result we shall hereafter see. That it may not break down is our constant prayer, that it will fail is our perpetual dread. Unfortunately it is not the devisers of this extraordinary system that will have to run the risk of the experiment, but the poor sufferers will be those who have bled or contracted illness in their country's service. Attended by Surgeons who have never met them before, herded in large masses where the contagion will spread rapidly, perhaps visited by a fresh "orderly" doctor every day, their chances of recovery will be reduced to a minimum. We cannot, perhaps, point our observations better than by calling attention to the state of the French hospitals at the close of the Crimean war, as pointed out in the life of the Prince Consort. "At that time out of 63,000 men we had only 5,000 sick, while the French out of 150,000 had 42,000 sick, of whom 250 died daily, while we lost three." The contrast in this state of things was so remarkable that the French Governments determined to ascertain how it was occasioned. Accordingly they sent out M. Baudreux, the Inspector of French Ambulances, to the Crimea to examine the English system on the spot. He made no secret of his conviction from what he saw there that the good state of the English army was due to the superiority of the English system. To some one who urged that our divisional hospitals under regimental Surgeons were not so good as one or two great ambulances, his answer, after studying the divisional returns, was : "Had you put all these sick together, you would have tripled the deaths, I am certain of it. When a man is sick, if you keep him with the Surgeon he is used to, and tend him with the care of his comrades, he does not lose hope. Send him to strangers, and he gives up the game and sinks rapidly."

LORD HOUGHTON writes as follows to the *Pall Mall Gazette* on the vexed question whether Englishmen have a right to receive foreign decorations :—The agreeable *feuilletoniste* who has given in your pages so many accurate descriptions of foreign life has for once blundered in making the English hero of his paper the victim of "the laws of his country" in his inability to receive a decoraton, to which he believes himself entitled, from a foreign Government. There is not only no English law upon this matter, but no existing prohibition except a Foreign Office Circular of forty-four years ago. I now write to you to prevent the authority of your contributor being urged in favour of this popular superstition, and also because I have seen an intimation that exhibitors at, and other persons connected with, the Paris Exhibition are to be permitted to accept decorations but not receive them publicly. If this is true, the Prince of Wales will have added one more claim to the popularity he has so justly acquired. His Royal Highness, as President of the Commission, has a full right to have his wishes consulted in this matter, quite apart from the question of legality. It matters perhaps very little whether this permission is or is not extended to the higher functionaries who have taken part in this international transaction ; but it is a matter of absolute right that the jurors who have given their valuable time and the high names of British industry which have taken part in this world-wide competition should not be deprived of the only reward and recognition which circumstances permit them to receive. I endeavoured, though in vain, to obtain this act of justice for my countrymen at the Exhibition of 1867, of which I had the honour to be a commissioner, and I shall rejoice if these fair claims are no longer set aside to support a false and foolish national tradition.

WE (*Army and Navy Gazette*) understand that Viscount Melgund, late of the Scots Guards, proceeds to India immediately as Special Correspondent of the *Times*. He has already had experience in a similar capacity for another journal during the war in Turkey, and several members of his family have held high office in India.

THE *Times*, remarking upon the announcement that the Sultan has agreed substantially to the scheme of administration proposed by Lord Salisbury for Asia Minor, observes that the chief difficulty in the way of the reforms thought desirable was a personal difficulty. It was easy to sketch out a scheme on paper and to induce the Sultan and the Turkish Ministry to give their consent to it. This has been done more than once, and it has failed as often as it has been tried. Reforms admirable on paper have come to nothing for want of a will to carry them out. Turkish officials have made a dead letter of them. It remains now to be seen what European officials will succeed in doing. If the Sultan is in earnest in the wish he shows to co-operate with us, the thing, we may almost say is done already. The choice of persons to be entrusted with the new powers will rest, of times just passed than those that have just commenced. shall have a right to augur for the best. He will have supplied the great thing wanting for the proper administration of his Asiatic Empire. We have been so often disappointed in the hope of the reform of Turkey that we cannot dare even now to feel anything like absolute assurance. But the success of Lord Salisbury's scheme would be felt in this country as a great national triumph. In the affairs of European Turkey there are other interests than ours, and other voices with a rightful claim to be listened to. Asia Minor is more our own. The acceptance of a scheme of reform which will leave the authority of the Sultan intact and will yet accomplish the beneficial results we have been aiming at is a diplomatic success which the Ministry may be proud of having achieved.

THE *Army and Navy Gazette* :—France has not alone been preparing her Navy for any eventualities that may arise, but is adding to her artillery in a manner that must bring home to those who are acquainted with the facts the impression that there is a determination on the part of the Government to be ready for anything. The manner in which the Press is conducted in France renders secrecy not difficult, and the fact that the greatest preparations are being made at private works, the owners of which keep their counsel, prevents everything being known, as it is in this country, directly war preparations are made. One limited company is now turning out more than a hundred guns of the heaviest calibre.

THE *Sportsman* :—We learn that at length the Australian cricketers, of whose somewhat high-handed modes of conduct we had ample experience during their visit to England, have been compelled to acknowledge that they have acted hastily and inexcusably. At Philadelphia, during their match with a home team, the decision of an umpire did not please them, and thereupon, like a pettish child who has sustained some trivial grievance, they "wouldn't play any more." They left the field, and it was an hour and a half ere they could be persuaded to return. Meanwhile, the onlooking American public, who were confident that their countrymen had been guilty of nothing that was wrong, naturally grew indignant over the fact of their being debarred a sight they had paid to witness. However, the Australians nursed up their wrath, and left the city of brotherly love with anything but brotherly love in their hearts. Now they have reflected and seeing that they were in the wrong have apologised.

BAGDAD has had a year of prosperous trade, the war having brought it the custom of districts usually supplied from Russia. Consul General Nixon, sending to the Foreign Office the Bagdad trade returns for the Turkish official year ending in March 1878, observes that the country is capable of unlimited development, and one of the first steps to this end would be the construction of a railway between Bagdad and the foot of the Persian hills, and another from Bagdad to Alexandretta *viâ* Mosul. This would give an alternative route to India, and be more expeditious than *viâ* the Suez Canal. Swift steamers from Kurrachee would reach Busreh (1,547 miles) in six days ; from Busreh to Bagdad river steamers would run with ease in seventy-two hours, and at the outside another sixty hours by rail would land passengers on the shores of the Mediterranean ; and this period of eleven days and a half is capable of acceleration. A railway from Bussreh to Bagdad might be an after-consideration, as the river Tigris affords a highway, which, if traversed by steamers of higher power than those now used, would much reduce the time occupied in the transit. The Consul considers that a railway from Bagdad to Alexandretta would pay exceedingly well, and British commerce would benefit greatly, as Bagdad would become the great mart, and drive Russian goods out of the Persian and Southern Asian markets, owing to the expensive land carriage those goods would have to defray. The cost of a railway from Busreh, at the head of the Persian Gulf, to Alexandretta, on the Mediterranean, has been estimated at 7,225,000*l.* ; but this is at the rate of 8,500*l.* per mile, a high rate considering that there is water carriage from London to Bagdad for railway material. Deducting the distance from Busreh to Bagdad, which is 250 miles as the crow flies, the first expenditure would be reduced to 5,100,000*l.* on the 600 miles from Bagdad to Alexandretta. The country between Bagdad and Mosul is a dead level. The expenditure on bridges would be inconsiderable. Bridging the Tigris, indeed, might be avoided if the terminus were made on the right bank of the river at Bagdad, and from thence ran straight to Aleppo, the line being flanked on one side by the Tigris and on the other by the Euphrates, and nearly the whole route a flat. The Consul suggests that the civilising influences which a railway through Arabia would initiate are considerable, and that the development of the country, with its vast resources and its enormous ancient system of canal irrigation, is well worthy the attention of statesmen. The privilege of navigating the Tigris from Busreh to Bagdad would have to be acquired from the Turkish Government. At present they have a few steamers of their own upon the river, and are jealous of other nations entering into competition.

SOME curious revelations as to the transfer of Bessarabia to Russia were, says the *Pall Mall Gazette*, made in the Roumanian Parliament the other day by the Prime Minister and the Minister of Foreign Affairs, M. Cogalniceano. The latter said that in June, 1877, when the Emperor of Russia was at Plojesti, he (M. Cogalniceano) received a message from Prince Gortschakoff stating that the Prince had a communication to make. M. Cogalniceano then went to Plojesti, and he was told by the Russian Chancellor that Russia desired to come to an understanding as to a new rectification of the Russo-Roumanian frontier ; that the Great Powers did not oppose such a rectification ; that the question had been discussed at Berlin at a meeting at Reichstadt ; and that the proposed rectification was an exchange of Bessarabia for some territory on the other side of the Danube. Prince Gortschakoff also said that the affair was a secret, which the Austrian Cabinet had not even communicated to its own Ambassador in London, lest the English Government should hear of it. M. Cogalniceano was thunderstruck at the news, and at once proceeded to the various capitals of Europe to verify it. "I ascertained," he said, "the truth of what the Ambassador of Austria and other Great Powers did not know. I learned word for word, I may say, that which was decided upon at Reichstadt ; that Russia insisted upon coming to an understanding with us about Bessarabia, and that Europe would in the end not make any opposition. I also found that the two German Great Powers had refused to allow Russia to possess herself of the mouths of the Danube ; and that Russia would, therefore, be satisfied with taking Bessarabia only up to the shore of that river, and leaving the delta to Roumania. I should add that Prince Gortschakoff did not return to the subject, although he lived for six months in our midst, so that we were all justified in believing that the project had been abandoned." The Premier, M. Bratiano, stated that on the day when the loss of Bessarabia was officially notified to him "by those who had signed the Convention guarantee ng the integrity of Roumania territory," he asked General Ignatieff about the reports which were current on the subject, and that the General assured him, "with tears in his eyes," that Russia would not take Bessarabia. "He is the only man," M. Bratiano added pathetically, "who ever deceived me ; and I warmly pressed his hand as he did so."

THE *Globe* :—The life of Cardinal Cullen, which has just ended at the age of seventy-five, furnishes one of those examples of successful ambition in which the Church of Rome is rich. The Cardinal may be said to have owed his rapid elevation in a very large measure to the fact of his residence in Rome during a great part of his earlier life. Going there professedly for purposes of study, he became rector of the Irish College, and must in that position have had opportunities of displaying at the Papal Court some of those qualities of mind which gained for him the favour of Pius IX. It was in 1849 that he returned to his native country with the proud title of Archbishop of Armagh, and very great was the astonishment of his countrymen at the appointment of the then unknown Irishman. Two years later he succeeded to the Archbishopric of Dublin, and soon entered with characteristic vigour into the question of national education which was then uppermost in Ireland. It may be said that on that question Dr. Cullen almost revolutionised the prospects of the country. Before his arrival the system of education which the Government had planned, and which was founded on a principle of mutual concession and conciliation, had been accepted, if not with gratitude, yet at least without much protest on the part of the Roman Catholic population. But Dr. Cullen organised the famous Synod of Thurles, and the grand resistance which was there planned and set on foot against the Queen's colleges and the National Education system. So long the two religions distinct and hostile, to discredit Protestantism in education and in everything else, and to maintain an uncompromising struggle with the religion and Government of England—these were the principles of Dr. Cullen, and, as a very rapid consequence, of Ireland. It is needless to add that a man of this disposition would embrace with eagerness of the extreme Ultramontane doctrines. He was in these, as in other matters, a thoroughgoing champion of war to the knife against heretics, and a man more suited to the

INDIAN NEWS-LETTERS.

(FROM OUR OWN CORRESPONDENT.)

POONA, Nov. 14.

THE announcement that Mr. Whiting, of the Irrigation Department has given a prize of Rs. 100, to be shot for by the Volunteers, is, I hear, not to be limited to the Poona detachment, but it is open for all Volunteers in India. I have not heard of the condition or conditions under which this prize will be shot ; but I hear that the competitors must shoot at the 800 range, and the run forward to the 300, the distance to be accomplished in four minutes. If they do not run forward, they will, I believe, be allowed to complete their firing at the 800 range. This reminds me of one of the conditions of the prize offered by the eccentric General, Lord Mark Ker, which was shot for by some of our Riflemen a few years back. The competitors had to run round a tree, which was not far from the range at which the competitors were firing, several times within a stated time.

Conductor Kirkpatrick, of the Commissariat Department, has been ordered to proceed to Bombay, from whence, it is said he will have to go to the frontier.

BOMBAY.

THE ice house in Marine Street, the property of Government, is advertised for sale by auction on the 29th inst.

HIGH COURT.—The High Court re-opens to-day on the termination of the October vacation.

ARMY HEAD QUARTERS.—Army Head Quarters will be established at Bombay on the 21st instant. Correspondence (except of an emergent nature) to be addressed to Poona as usual.

KOSHERJAH BAHADOOR, son-in-law to the late Nizam of Hyderabad, and Sir Dinker Row passed through Poona on Friday, *en route* to Bombay and other places for change of air.

THE MUNICIPAL CORPORATION.—The special meeting of the Municipal Corporation convened for Saturday afternoon, was adjourned, for want of a quorum, till 3 p. m. to-morrow (Tuesday.)

ASSAULT.—A peon named Davideen Rowtee, in the service of Goculdass Madowjee, was on Friday last fined Rs. 15, or in default to three weeks' hard labour in the Common Jail, by Mr. W. Webb, on being found guilty of committing an assault on a Mrs. Crawford, residing at Gaumdavie Road, Chowpatty.

FOUND DROWNED.—A Coroner's inquest was held on Saturday, on view of the body of a ghorawalla, which was found floating on the surface of the water in a quarry hole at Ouatsepoora. The following verdict was recorded, "that the death of the deceased was caused by drowning, but under what circumstances he was drowned there is no evidence to say."

SUICIDES.—A Coroner's inquest was held on Saturday, on view of the body of a Hindoo bricklayer, who committed suicide by throwing himself into a tank at Ouatsepoora, where he was found drowned. A verdict to that effect was recorded.—Another inquest was held on the same day on view of the body of a Hindoo woman, who committed suicide by throwing herself into a well at Punneswady. A verdict of suicide was recorded.

THE FATAL RAILWAY ACCIDENT AT DADUR STATION.—The adjourned inquest was resumed on Friday last into the circumstances connected with the death of Mr. Eduljee Nusserwanjee Kapadia, who, on the arrival of the Kussara local train at Dadur Station on the 31st ult., fell between the platform and the train while getting out of a carriage and was killed. The evidence of a native passenger by that train, the driver, and the head guard was taken, after which the jury returned the following verdict:—"That the death of Mr. Eduljee Nusserwanjee Kapadia was caused by injuries received by the deceased getting out of a railway carriage while the train was in motion."

COUNTERFEITING THE QUEEN'S COIN.—Meer Hoosein Shaw Kadrie *alias* Bishmilla Fakeer, and Syud Chand Syud Jawoor Chand, were brought up on remand on Friday last before Mr. C. P. Cooper, charged at the instance of Mr. Superintendent Mills, with counterfeiting the Queen's coin, and also that they had in their possession instruments and materials intending the same to be used for the purpose of counterfeiting ; and further with having in their possession sundry counterfeit Queen's coins, with intent to commit fraud. The particulars of this case have already appeared in a previous issue of our paper. His Worship committed prisoner No. 1 to take his trial at the ensuing Criminal Sessions of the High Court, but discharged the second prisoner, as there was no direct evidence against him.

ILLEGAL POSSESSION OF PROPERTY.—Soomar Sulliman, a Mahomedan shop-keeper, who stood charged with having in his possession sundry articles, the property of Messrs. Treacher and Co., consisting of 28 double eye-glasses, 13 pairs of spectacles and a cold-case, of the collective value of Rs. 260, reasonably suspected to have been stolen or fraudulently obtained, and failing to account satisfactorily how he came possessed of the same, and further with dishonestly receiving the said stolen property, knowing or having reason to believe the same to have been stolen, was brought up on remand and charged before Mr. Nana Morojee on Friday last. At the close of the evidence for the defence, His Worship in disposing of the case said :—The evidence of Mr. Taylor, head of the employ in Treacher & Co.'s firm satisfies me that the spectacles produced are the property of that firm. It is impossible that each of these articles can have a distinguishing mark, but some of them have the private marks of the firm of Treacher and Co., and on the strength of these marks, and after a careful and consideration of these articles, Mr. Taylor has sworn that they are the property of the Company. No doubt the last witness for the defence who was examined swears that the batch of eye glasses is part of a certain lot sold by him (the Magistrate) that the witness had made up his mind before getting into the witness box to swear that he had sold them to the prisoner, because he said at once "these are the eye glasses I sold to the prisoner." Nothing but the green marks enables him to sweep to their identity. He (witness) admits that other merchants in Bombay get consignments with similar marks. I think it was a reckless proceeding on his part. As for the first witness for the defence, his eyesight was very bad and he gave too much evidence. One fact deprives his evidence of all value—while the spectacles in his invoice are convex the greater part of those found are concave. The other two witnesses for the defence have said almost nothing. If anything, the evidence for the defence has rather strengthened than weakened the prosecution. No discrepancy appears between Mr. Taylor and Mr. Thompson's evidence, the latter was only inexperienced and careful in his answers. 2ndly. Did the prisoner know that he was dealing in stolen ? The conduct of the prisoner must be considered. His first answer to Mr. Inspector McDermott, subsequent to the searching of his shop, was, "if you let me go I shall tell you ;" he then says I got them from Treacher and Co. Mr. Carey, whom the prisoner points out, works in a different department of the shop. The prisoner must have known that Mr. Carey had no business to sell them. Had prisoner been an innocent man he would have given a straightforward account of the transaction. The Magistrate then convicted and sentenced the prisoner to four months' rigorous imprisonment.

THE ANNUAL CHORAL FESTIVAL.—The choir from St. Mary's Church is to take part in the Festival this year for the first time. Mr. Maenes is indefatigable in his labours to teach the men and boys their respective parts. We hope they will do credit to his teaching. —*Poona Observer.*

A TIGER AT MATHERAN.—Our Matheran correspondent tells us that a panther or a tiger has killed two calves belonging to the Males of the old Telegraph bungalow known as Fernwood. This is a nice chance for shikarees to have a shot before the visitors of the season come up. The weather is perfect just now, and any one who has few days to spare would enjoy them thoroughly at Matheran.—*Deccan Herald.*

HIS EXCELLENCY THE GOVERNOR'S MOVEMENTS.—His Excellency Sir Richard Temple, Bart, K. C. S. I., accompanied by Captain Dean Pitt and Mr. Moore, Collector of Satara, was to leave Mahableshwar on Thursday last for Chiploon, by the Konkan route to Bombay. —*Id.*

FATAL ACCIDENT AT THE WANOWRIE BUTTS.—A Police Inquest was held at the Wanowrie Butts on Thursday on the body of one Marian Perohn, a Madrassee Christian, aged 40. From the evidence recorded before the inquest it appears that the deceased, in company with his son Antone, aged 16 years, went that morning to pick up fired-off bullets. The deceased left his son on the east side of the hill and proceeded towards the south, and got on top of the hill, where he concealed himself behind a rock, and while the ball-practice was going on, he, no doubt unint

CARTER & CO.'S
"HALAWAT ARABIYA"
(THE DELICIOUSNESS OF ARABIA)
THE HORSE FOOD OF THE ARABS,

IS a unique preparation, composed of highly nutritious and aromatic elements, most palatable and digestible in itself, and capable of stimulating the Appetite and Digestion, without the aid of dangerous Drugs.

This valuable FOOD and RELISH, known to the Arabs for ages, and used by them in the preparation of their Colts for the extraordinary trials of speed and endurance for which the Arabian horse is famous—and in imitation of which many pernicious condiments doubtless owe their origin—is now introduced for the first time to the general public, and from the very flattering reception already awarded it in England its ultimate universal adoption by all who value their horse's health and appearance is assured.

As a TONIC INVIGORATOR it is highly recommended for all horses suffering from DEBILITY after Sickness, OVERWORK, IMPROPER FEEDING, or from the most general of all equine ailments, DYSPEPSIA, the precursor of Colic, Surfeit, Diabetes, Inflammation of the Bowels, Want of Appetite, and Loss of Strength and Spirits.

To the young, tired, aged, overtaxed, or delicate horse it is simply invaluable.

For the hasty feeder it is most beneficial, acting as a corrective whenever insufficiently masticated food is swallowed.

It is likewise a most valuable addition to the horse's daily diet, as from its highly digestive qualities it assists in the assimilation of the food by which the entire nourishment is extracted. It preserves the stomach and digestive organs of the horse in a proper tone, promotes a good appetite, ensuring rapid growth, and a healthy and vigorous condition.

After a severe and exhaustive day nothing is more acceptable to the horse or more beneficial as a restorative than the addition of a Packet of the ARABIAN HORSE FOOD AND RELISH to the horse's evening gruel or mash.

THE ARABIAN HORSE FOOD AND RELISH
Is sold only in Cases containing 56 Sealed Packets.
Price Rs. 9.
